About Descartes

Descartes (Nasdaq:DSGX) (TSX:DSG) is the global leader in providing on-demand, software-as-a-service solutions focused on improving the productivity, security and sustainability of logistics-intensive businesses. Customers use our modular, software-as-a-service solutions to route, track and help improve the safety, performance and compliance of delivery resources; plan, allocate and execute shipments; rate, audit and pay transportation invoices; access global trade data; file customs and security documents for imports and exports; and complete numerous other logistics processes by participating in the world's largest, collaborative multimodal logistics community. Our headquarters are in Waterloo, Ontario, Canada and we have offices and partners around the world.

WHY DESCARTES?

Comprehensive Integration

Seamlessly integrates with Geotab, utilizing real-time vehicle tracking and ELD data for optimized route planning and execution.

Tailored Solutions

From strategic route planning to operational dispatching, our configurable capabilities meet each business's unique needs for maximum efficiency and profitability.

Innovative Technologies

With 20+ years of innovation, Descartes leads in route optimization, automation, AI, and analytics for unmatched productivity.

Expanded Capabilities

We offer planning, dispatch, execution, mobile apps, customer experience, driver safety training, and integrated TMS for comprehensive fleet solutions.

KEY CAPABILITIES

Strategic Route Planning

Develop and optimize sales/distribution territories, service and operational policies, and fixed routes that maximize customer service and profit.

Operational Route Planning

Create optimal daily and multi-day routes using fixed, dynamic, or hybrid route planning approaches.

Dispatch & Tracking

In real-time, assign work to routes, respond to exceptions and make corrections, track progress versus plans, and calculate ETAs.

Delivery Appointment Scheduling

Smart scheduling offers delivery appointments that not only meet customer expectations but reduce delivery costs.
